

NEW SERVICE AVAILABLE FOR CHRISTCHURCH LANDSCAPERS

BIG native trees in 45L bags from takana native trees are now available in Christchurch at The Native Plant Nursery (TNPN) which is holding tree stock on our behalf at Marshland Rd.

Takana is New Zealand's largest nursery growing native trees exclusively to BIG-tree stage. BIG stage trees provide immediate beautification for your projects, offering an instant 5-10 year old environment, with all the advantages of shade, shelter, and native beauty.

The range of species below has been selected specifically for their eminent suitability to Canterbury conditions. They are well grown and sufficiently mature to withstand frost and wind. Takana natives stocks 140 species of native trees grown to BIG tree stage just north of Auckland. If you prefer native species not on this list, let us know and we can include them in the next shipment.

All the species listed below are in Christchurch in 45L bags and we will be continuing our supply arrangements with TNPN.

Please be welcome to make arrangements with TNPN for inspection of the stock during business hours.

\$135 + GST per bag

at The Native Plant Nursery,
478 Marshland Road, Christchurch, Ph 03 385 9008
