## ***Welcome to takana***

We sell native trees...at big tree stage!

takana grows almost every New Zealand native tree, at heights of 2m-5m in 45 Litre carry bags or bigger, up to 450 Litres, plus field trees.

So, more than 75 species of beautiful native trees at big tree stage to enhance your landscape spaces, because...if you need instant impact, life's too short to wait for small plants to become specimen trees.

takana has a policy of stocking all the native trees which will grow in the North (i.e. from Waikato/Bay of Plenty north).

takana grows more than 75 species, as well as intra-species variations. Half of these species are not commonly available from NZ nurserymen, but all have their own beauty and place within our unique ecology. And surprisingly, many of us have little or no knowledge of these – how they grow and what conditions they suit.
